RESEARCH METHODOLOGY- (Credit-4)

INTRODUCTION

This course is to equip learners to utilize and conduct research as service managers to improve services, evaluate, develop new services and intervention methods; strategies techniques and also, be an effective consumer of other researches.

OBJECTIVES

- a. Develop an understanding of scientific approach to human inquiry in comparison to the native or common sense approach in various aspects, and its process.
- b. Understand major research strategies, meaning, scope and importance of Labour work research.
- c. Develop an ability to see the linkages between practice, research and theory and their role in enriching one another.
- d. Develop attitudes consonant with the scientific approach-Concern for accuracy, specificity and authenticity, awareness of ones own prejudices or biases; honesty and being open to correction.
- e. Develop attitudes favorable to the judicious integration of practice, research, and theory.
- f. Develop ability to conceptualize, formulate and conduct simple research projects exercises (This would include a broad range of basic research skills such as conceptualization of a research strategy and problem; writing a research proposal; developing tools for collecting data; use of sampling strategies; data collection, processing, presentation, analysis and interpretation; and writing research report etc.)
- g. Make informed assessment and judicious use of research studies and findings.
- h. Develop skills for use of library and documentation services for research.

The semester course for the semester system OR full paper in the annual examination system in the first year of the two-year postgraduate programme.

COURSE	UNIT	CONTENT	TEACHING METHOD	CREDIT	PAPER WEIGHTAGE
